1		While listening to your calls, you can choose to listen for over 40 seconds by pressing 1 at any time.
4	¢ф	Calls can be rewinded to the start by pressing 4.
6		If you call back, or want to fast forward to the latest radio traffic, you can so this by pressing 6.
7		To rewind the call by 5 seconds, press 7.
9		To fast forward the call by 5 seconds, press 9.
*		To respond to a call, simply press *. This will show you as en route to the last dispatched call, and allow you to listen for over the default 40 seconds.

If you hear a beep, that means your phone has gotten ahead of the radio bridge. At this point, you can either wait, or press 4 to hear the start of the call.
