

# What TheFireHorn can do for your agency.

## Automatic Radio Bridge

- TheFireHorn can be bridged with your existing two-tone paging radio configuration.
- This allows the members of your department to receive radio pages via their cellular telephones via both text message and voice call.
- Members can respond to callouts from their cell phone.

## Manual Telephone Callout and Mass Text Messaging

- Department Administration can place mass telephone calls and text messages from TheFireHorn.com
- This allows for notification of inclement weather, special detail, or natural disasters.

## Calendars and Organization

- Calendars and other organizational tools allow for information that can be tied into your existing website.
- The ability to delegate access to the department's resources allows department administration to mitigate tasks.
- Allows for easy Department Roster management.
- Response Center allows for Department Staff to overview previous calls.
