## FOR IMMEDIATE RELEASE

18 January 2011

The Fire Horn, Inc. publicly announces protest of SOPA / PIPA

The Fire Horn, Inc., along with other organizations such as Google and The Wikimedia Foundation is announcing it's protest of the Stop Online Piracy Act (SOPA) and Protect IP Act (PIPA). We believe that this legislation undermines and stifles the innovation that helps drive the economy of the United States. In protest of this proposed legislation, TheFireHorn.com will display a blacked out logo and partially disable some marketing material for 24-48 hours. The blackout will not have any effect on the day to day operations or services of The Fire Horn.

The Stop Online Piracy Act and Protect IP Act are seen as dangerous legislation by industry leaders across the United States and much of the international community.

The Fire Horn creates software and telephony solutions that allow police, firefighters, and other emergency responders to communicate within and outside of their agencies more effectively than ever. Preston Louis Ursini is being made available for interview with regards to SOPA / PIPA.

Preston Louis Ursini, Media Contact, Chief Systems Engineer
